Matěj Vykoukal

SENIOR FRONTEND ENGINEER

Senior Frontend Engineer focused on scalable, accessible web products. Most recently at BudgetBakers, I owned Wallet's frontend and the data queries behind chart rendering and aggregation.

SELECTED PROJECTS

Wallet BudgetBakers

Core personal finance product with complex flows, performance constraints, and multi-platform UI consistency.

Owned the full frontend and database queries for chart rendering and aggregation.

Next.js · TypeScript · CouchDB · PostgreSQL

Christie's Design System ACTUM Digital

Premium design system with reusable components, tokenized theming, and governance.

Component build-out, Storybook, cross-team reviews.

Design Systems · Storybook · React

aria-hooks ACTUM Digital

Accessibility-first hooks library that standardizes keyboard and screen reader behavior.

Accessibility strategy, reusable utilities, documentation.

Accessibility · React · TypeScript

EXPERIENCE

BudgetBakers Senior Frontend Engineer 2022–2026

Owned Wallet's full frontend and the data queries behind chart rendering and aggregation; delivered internal SaaS portal tooling.

ACTUM Digital Frontend Developer 2021–2022

Built reusable components and accessibility utilities for enterprise clients, with strong documentation and review practices.

Freelance Frontend Developer 2019–2021

Delivered websites, landing pages, and small e-commerce projects with fast iteration and clean UI delivery.

SKILLS

Frontend

Next.js, React, TypeScript, State Management, Accessibility

Architecture

Design Systems, Product UI, Performance, Scalable UI, DX
